8. Disability.

Loose Cartilage left knee.

Statement of Case.

Note.—The answers to the following questions are to be filled in by the Officer in medical charge of the case. In answering them he will carefully discriminate between the man's unsupported statements and evidence recorded in his military and medical documents. He will also carefully distinguish cases entirely due to venereal disease.

9. Date of origin of disability. April 1915
 10. Place of origin of disability. Stobbs Camp. Scotland.

11. Give concisely the essential facts of the history of the disability, noting entries on the Medical History Sheet bearing on the case. While undergoing military training at Stobbs Camp. Cartilage was dislocated. Was sent to Hospital in Edin. Scotland. and Cartilage removed. did not do duty till Oct. 1915. Hurt knee again while taking bombing course, by falling over stairs, operated on again in March 1915. at York Hill Hospital, Glasgow. Has been doing light duty since. also has to wear knee brace since.

Candidate states that his knee was first hurt while playing football, on Beib Island Hf. in Summer of 1911. (There is no medical history sheet with the man, he above are his own statements to me.)

12. (a) Give your opinion as to the causation of the disability. As above stated. Not due to active service.
 (b) If you consider it to have been caused by active service, climate, or ordinary military service, explain the specific conditions to which you attribute it (See notes on page 3). Not caused by active service.

13. What is his present condition?

Weight should be given in all cases when it is likely to afford evidence of the progress of the disability.

Knee weak, tenderness on pressure on side and back. Has to wear "knee brace" which he cannot get along without.

14. If the disability is an injury, was it caused *was not caused by military service but was aggravated by military training.*

Opinion of the Medical Board.

NOTES.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as, in the event of the man being invalided, it is essential that the Commissioners of Chelsea Hospital should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pension vary directly according to whether the disability is attributed to (a) active service, (b) climate, or (c) ordinary military service. It is therefore essential when assigning the cause of the disability to differentiate between them (see Articles 1162 and 1165, Pay Warrant, 1913).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

(v.) A disability is to be regarded as due to climate when it is caused by military service abroad in climates where there is a special liability to contract the disease.

20. (a) State whether the disability is the result of (i.) active service, (ii.) climate, or (iii.) ordinary military service.

(i) no

(ii) no

(iii) Aggravated by 20 (iii)

(b) If due to one of these causes, to what special conditions do the Board attribute it?

(b) accident

21. Has the disability been aggravated by

(a) Intemperance? no

(b) Misconduct? no

22. Is the disability permanent? yes

23. If not permanent, what is its probable minimum duration?

To be stated in months.

24. To what extent is his capacity for earning a full livelihood in the general labour market lessened at present?

estimated at 1/4

In defining the extent of his inability to earn a livelihood, estimate it at $\frac{1}{2}$, $\frac{1}{3}$, $\frac{2}{3}$, or total incapacity.

25. If an operation was advised and declined, was the refusal unreasonable?

26. Do the Board recommend

(a) Discharge as permanently unfit, or

yes

(b) Change to England?
